

## **CSMA SARUM MARSHALS TEAM**

Newsletter No44

Rather a busy few weeks before the Christmas & New Year holidays and it looks to continue that way right up to Easter and beyond.

First a sad note concerning the fatality of a driver on the Exeter Trial and serious injuries to his navigator. It appears that his car, A Marlin Sports, rolled getting out of a test section. We all have our theories about making the sport safer, perhaps roll over bars should be fitted to open top vehicles. Enough said.

A quick recap of past events:

We had 10 members and guests out on the Southsea 12 on January 6 at Winchester. The Team were the organisers for this one and pleased that our hard work was appreciated by all. All the recent 12 car events have been a success with full entries but we are running out of "fresh" roads and perhaps we should look at the old Salisbury routes again to the north west of Romsey.

### Future Events

Please check Newsletter 43 for future dates as there are a number of date clashes or very near misses in a crowded late Winter/early Spring calendar.

As well as local events there's plenty going on just a little further down the road as you can see.

There are several training opportunities listed and registered marshals should endeavour to attend one to maintain their registration. The first will be at the Brooklands Museum, a very interesting place and is for "first on the scene" marshals. Something that will also be very useful in a non-motorsport incident. Later on, Brookes University Wheatley Campus, provides a very interesting venue for marshals, new to experienced, with a background of motorsport development workshops and labs that you are free to walk round lunchtime. Not to be missed.

Not a very good response regarding re-starting the Salisbury Group, so we will leave that one until sufficient interest is shown. Please remember that the Sarum Team can still organise events if the demand is there, even Social Evenings.

Any queries, questions, suggestions (polite ones) please get back and I will do my best to answer them or find a person who can.

Finally there is always a pile of things to do, not made easier by clubs not deciding till the last minute what, where and when their event is. Yet I'm supposed to provide the powers that be with a clear accurate and concise Calendar for the year ahead.

Regards to you all  
Tony Morriss
